Maximum Marks	4 Marks

Empathy Map

An empathy map to understand customer/user from four perspectives - what they Say, Think, Do, and Feel - in relation to the problem, project addresses.

SAYS	THINKS
• "I want to evaluate students based on their conceptual understanding, not just memorization." • "Manual viva evaluations take too much time." • "I need a fair and consistent way to assess every student."	• Students should receive immediate feedback to improve their learning. • There should be a faster and more objective assessment method.

	DR. PRAGNA <i>(College Faculty Member / Educator)</i>	
DOES • Conducts viva examinations and oral presentations. • Evaluates students' explanations manually. • Maintains assessment records and provides feedback		FEELS • Frustrated by the time required for manual evaluation. • Concerned about maintaining fairness across all students. • Optimistic about using AI to improve the assessment process.
