

Customer Journey Map

Date	6 July 2026
Team ID	xxxxxx
Project Name	Voice-Based Concept Understanding Analyser (VBCUA)
Maximum Marks	2 Marks

Customer Journey Map

The customer's experience stage-by-stage, capturing their actions, touchpoints, thoughts, and feelings, along with process ownership and improvement opportunities at each stage.

Phase of Journey	Stage 1	Stage 2	Stage 3
Actions <i>What does the customer do?</i>	• Opens the VBCUA application. • Selects or enters the assessment topic. • Reads the instructions and prepares to answer.	• Records or uploads a spoken response. • Submits the response for AI analysis. • Waits while the system processes the speech.	• Views the concept understanding score and feedback. • Downloads the performance report. • Uses the feedback to improve future responses
Touchpoint <i>What part of the service do they interact with?</i>	• Streamlit home page. • Topic selection interface. • Assessment instructions.	• Microphone or audio upload feature. • Speech processing and evaluation module. • Progress indicator.	• Results dashboard. • Feedback section. • PDF report download option.

Customer Thought <i>What is the customer thinking?</i>	• "I hope the assessment is simple and easy to use." • "Will it accurately evaluate my explanation?" • "I'm ready to demonstrate my understanding."	• "I should explain the concept clearly." • "I hope the AI understands my speech correctly." • "I'm curious about my performance."	• "The feedback helps me identify my strengths and weaknesses." • "I know what I need to improve." • "This assessment is more informative than traditional tests."
Customer Feeling <i>What is the customer feeling?</i>	• Curious. • Prepared. • Slightly nervous.	• Focused. • Engaged. • Hopeful.	• Satisfied. • Motivated to improve. • More confident.
Process Ownership <i>Who is in the lead on this?</i>	• User (Student/Teacher) • VBCUA User Interface • System Guidance	• Speech Recognition Module • AI Evaluation Engine • Semantic Analysis Module	• Report Generation Module • Feedback Engine • User
Opportunities <i>How can we improve this stage?</i>	• Add personalized topic recommendations. • Provide a guided demo before the assessment. • Support multiple languages.	• Improve speech recognition accuracy. • Reduce processing time. • Offer real-time recording quality checks	• Provide detailed improvement suggestions. • Track progress across multiple assessments. • Add personalized learning recommendations.
